Everett Montessori Academy

Private Non-Profit School for Grades 6 thru 12

Enrollment for '23-'24 now OPEN!

What does the Montessori vision mean to us?

- Engage each student's unique set of skills and view of the world. Meeting them with compassion and understanding, while removing barriers to progress and opportunity.
- Empower every student with choices to better match their curiosity and pace of learning. Low student-teacher ratios will facilitate accelerated learning as well as more support for foundational, structured learning for students requiring additional support.
- Inspire lifelong learning, personal growth and sense of community. Always striving to do better, making a better world for us to share.

Change the future for your children TODAY!
